

NOTICE: TRAINING PLACEMENT & ALUMNI CELL

Ref: GITM / T&P / 2025-26/179

Date: 16 May 2026

Sub: Campus by Action TESA

Attn: B. Tech (ME) / Diploma (ME) – 2026

About	Action TESA is one of India's largest manufacturers of engineered wood panels and interior infrastructure products. Part of the multibillion-dollar Action Group, the brand is widely known for pioneering High-Density High-Moisture Resistance (HDHMR) boards, MDF, and laminate flooring as durable, cost-effective alternatives to traditional plywood.
Salary Package	INR 2.85 LPA + Benefits (Yearly Bonus, Leaves, Gratuity, Dress, Canteen Facilities, and Yearly Increment.)
Job Profile	Asst. Engineer
Skills required	1. Process Monitoring & Optimization: Monitor the aily operations of the production line, ensuring all systems are functioning efficiently. Identify bottlenecks and work with the team to optimize production processes. • Production Line Efficiency • Bottleneck Identification and Resolution Time • Process Downtime 2. Troubleshooting: Diagnose and resolve mechanical issues on the production floor. Work with the maintenance team to minimize downtime. • Mean Time to Repair (MTTR) • Equipment Availability 3. Process Improvement: Assist in the analysis of production data to identify areas for improvement. Implement process enhancements to increase efficiency and reduce waste.
Job Overview	The Production Engineer will be responsible for supporting the efficient operation of our fully automated production line. This role involves monitoring, maintaining, and optimizing production processes to ensure the consistent production of high-quality products. The engineer will work closely with senior engineers, supervisors, and the production team to address technical issues and implement improvements.
